## Why Web Books?

- Communication with home
  - Any browser can read them
- Motivation because work is published
- Makes you look like Super Teacher

## PowerPoint & Word

- It's familiar to everyone
- PowerPoint is formatted for computer screen (size ratio)
- Word: Put everything in a table, you can remove the lines
- Save as web page: htm = file & folder;  
mht = 1 file (2003 & 2002 XP)

- Compress the graphics
- Give everything to the webmaster
  - Web page file
  - Graphics folder

## WebBlender

- [www.tech4learning.com](http://www.tech4learning.com)
- Snacks & Recipes
- Simple to use
  - Great for elementary
  - Good for older kids - can focus on curriculum, not on building page
  - Can learn web authoring later
  - Links Built-in
  - Compresses photos
  - Can ftp to site
